I'm absolutely thrilled you're interested in my speaking, training, and professional development services! As a lifelong educator with more than twenty-eight years of experience; it's been a joy to deliver engaging presentations, targeted training and facilitate small and large group professional development sessions for more than twelve years.

This document includes a list of my most popular sessions. But here's the best part: I'm always eager to design something just for you! Whether you need in-person or virtual support, live sessions, or asynchronous learning, I'll work closely with you to create the perfect customized session. Let's make something amazing happen together!

This doc was updated on 10/15/2025. Contact me at jen@techtips411.com for more information.

👍 Most Popular Sessions

💥***Adobe: Sparking Creativity*** (1 to 3 hours workshop)
Keen to transform your approach to content creation? In this session, we'll dive into Adobe's free Creative Cloud Express. Discover innovative ways to design engaging resources and dynamic lessons that captivate every learner in your classroom. Explore exciting possibilities for student-created projects, empowering your students to become digital storytellers. Come prepared to spark your imagination and leave with actionable ideas to invigorate your teaching!

😍 ***Become an Author and More with Book Creator*** (1 to 2 hour session)
Looking to supercharge the 5Cs in your classroom? This session is packed with exciting ideas, clever app-smashing tips, and valuable resources—all centered around the versatile tool, Book Creator. You'll discover how to personalize learning and beautifully showcase student work in ways that are easily adaptable across every subject and grade level. Get ready to empower your students and transform their learning experience!

🎨 ***Creating with Canva*** (1 to 3 hours workshop)
Seeking ideas to boost creativity and communication in your classroom? In this hands-on workshop, we'll dive deep into the exciting features of Canva. You'll discover insider tips and tricks for crafting engaging projects and content that truly resonate with your diverse learners. Get ready to roll up your sleeves and gain practical experience creating your own resources, along with a wealth of ideas for inspiring student-led projects. Let's get creative together!

🦄 ***Cultivating Creators: Elevating Your Lessons & Projects*** (1 to 3 hour workshop)
Are you ready to unleash the inner innovator in every learner? Our students need to be creators, collaborators, critical thinkers, and confident communicators – individuals who can make meaningful choices and have their voices heard. But how do we truly foster these essential skills in our classrooms, moving beyond traditional methods to truly ignite engagement? In this session, we'll dive deep into the exciting intersection of pedagogy and technology. This isn't just about learning new tools; it's about reimagining your lessons and projects to empower students as active participants in their learning journey.

🎙️ ***Did You Hear That? Podcasting in the Classroom*** (1 to 2 hour workshop)
Students need to be creators of content, not merely consumers. It's time to transform your classroom into a dynamic hub of creation and innovation! This engaging presentation will ignite your imagination and equip you with practical strategies to turn your students into passionate content creators through the power of podcasting. We'll dive deep into the ""why"" and ""how"" of integrating podcasting into any subject or grade level. You'll gain a wealth of ideas for bringing this exciting medium directly into your classroom, fostering critical thinking, communication, and collaboration skills.

😎 ***Did You See That? AR & VR in the Classroom*** (1 or 2 hour session)
Ready to bring a new dimension to your lessons? Step into the world of Augmented and Virtual Reality and discover how these powerful tools can captivate every student. This session will immerse you in innovative ways to boost engagement using AR and VR experiences, including exciting content creation ideas. You'll leave with a toolbox of easy-to-use apps, resources, and practical ideas for incorporating immersive learning into your standards-based curriculum. Get ready to transform your classroom into a portal of possibilities!

😜 ***There's a Bitmoji for That!*** (1 or 2 hour workshop)
Are you looking to level up your presentations, resources, or Bitmoji Classroom?
I love my Bitmoji! I must admit, my "Jenmoji" leads a very exciting life. People have even called me the Bitmoji whisperer. Learn creative design tips and secret Jen hacks like face-swapping. Explore sites, apps, and tools for using your Bitmoji to engage your audience.

🔥 Adobe Express

💥***Adobe: Sparking Creativity*** (1 hour session)
Keen to transform your approach to content creation? In this session, we'll dive into Adobe's free Creative Cloud Express tools—Post, Page, and Video—to unlock their incredible potential. Discover innovative ways to design engaging resources and dynamic lessons that captivate every learner in your classroom. We'll even explore exciting possibilities for student-created projects, empowering your students to become digital storytellers. Come prepared to spark your imagination and leave with actionable ideas to invigorate your teaching!

❤️‍🔥 ***Ignite Imagination: Fostering Student Creativity with Adobe Express***
(2 to 3 hour workshop)
Ready to ignite your students' creativity? This session will explore the power of Adobe Express, a versatile and accessible platform designed to empower students. Discover how to leverage its features to help students across all subjects express their ideas, develop compelling narratives, and produce visually stunning projects. Through hands-on demonstrations, you'll learn to integrate Adobe Express into your curriculum to enhance digital literacy and engagement. Leave with practical, inspiring ideas to cultivate the next generation of digital creators.

🆒 AR & VR

😎 ***Did You See That? AR & VR in the Classroom*** (1 hour session)
Ready to bring a new dimension to your lessons? Step into the world of Augmented and Virtual Reality and discover how these powerful tools can captivate every student. This session will immerse you in innovative ways to boost engagement using AR and VR experiences, including exciting content creation ideas. You'll leave with a toolbox of easy-to-use apps, resources, and practical ideas for incorporating immersive learning into your standards-based curriculum. Get ready to transform your classroom into a portal of possibilities!

⬆️ **Level Up Learning: Unleashing the Power of AR/VR in EDU** (1 to 2 hour session)
Ready to step into the future of education? This dynamic session will explore the transformative potential of Augmented, Virtual, and Mixed Reality. Discover how these immersive technologies can become powerful tools for deeper engagement and enhanced understanding, moving beyond novelty to build essential 21st-century skills. We'll explore practical applications and provide you with readily available tools and apps you can immediately integrate into any subject. You'll leave with actionable strategies and resources to "level up" your teaching!

🧠 Artificial Intelligence

😎 ***Enhancing ELA: Level Up with AI*** (1 to 2 hour workshop)
Ready to revolutionize your English Language Arts lessons? This hands-on workshop will show you how AI can transform your classroom, making learning more engaging and personalized than you ever thought possible. We'll explore powerful AI tools for both teachers and students, giving you practical experience you can use right away. You'll leave with a wealth of innovative ideas for leveraging AI to create dynamic projects, support diverse learners, and level up your ELA curriculum. Don't miss this chance to unlock the future of learning!

🍎 ***Hello Hal! Leveraging AI in the Classroom*** (1 to 2 hour workshop)
Ready to navigate the exciting new world of Artificial Intelligence in education? In this workshop, we'll explore the pros and cons of using AI and move beyond the hype to discover practical applications for your classroom. You'll gain a toolbox of ideas, resources, and specific AI tools that you can use to enhance student learning and streamline your work. Get ready to embrace the future and leverage AI to create a more dynamic learning environment!

🏫***Leveraging AI as an Administrator*** (1 to 2 hour workshop)
Ready to harness the power of Artificial Intelligence to streamline your school's operations? This workshop explores the practical pros and cons of AI from an administrator's perspective. Discover innovative tools and resources for everything from data analysis to communication, all designed to make your job more efficient. We'll provide you with a toolkit of ideas for leveraging AI to support your staff, manage resources, and enhance your school community. Get ready to embrace the future of educational leadership!

💯 Assessment

✅ ***Awesome Assessment Tools*** (1 hour session)
Tired of traditional assessments? Get ready to level up your classroom with game-based assessment tools! In this engaging session, we'll explore innovative ways to gauge student knowledge that are both fun and effective. You'll leave with practical ideas and clever tips and tricks for creating a more dynamic and inclusive assessment environment for your diverse learners. Let's make evaluating students learning a game worth playing!

📊 ***Got Data? Fabulous Forms*** (1 to 2 hour workshop)
Tired of sifting through stacks of paper or disorganized spreadsheets? This session is your chance to master Google Forms and transform how you collect and use data. We'll explore powerful tips and tricks to design fabulous forms that streamline your workflow and make data collection a breeze. You'll leave with practical strategies for analyzing your results and turning that information into actionable insights. Get ready to finally make your data work for ~~you!~~

🚦 ***Ready, Set, Assess!*** (1 hour session)
Ready to get the data you need while keeping students engaged? In this session, we'll explore powerful tools and resources designed to make assessing your diverse learners more effective and fun. Discover clever tips and tricks for measuring learning in ways that go beyond traditional tests. You'll leave with practical strategies for creating a dynamic assessment environment that truly captivates your students. Let's make assessment exciting!

📚 Book Creator

😍 ***Become an Author and More with Book Creator*** (1 to 2 hour session)
Ready to supercharge the 5Cs in your classroom? This session is packed with exciting ideas, clever app-smashing tips, and valuable resources—all centered around the versatile tool, Book Creator. You'll discover how to personalize learning and beautifully showcase student work in ways that are easily adaptable across every subject and grade level. Get ready to empower your students and transform their learning experience!

🥳 **Unleash the Storytellers: Igniting Literacy and Creativity with Book Creator** (1 to 3 hour workshop)
Discover how Book Creator empowers students to become authors, boosting literacy and unleashing creativity across the curriculum. This engaging session will showcase the platform's versatility in enhancing reading comprehension, vocabulary acquisition, and writing fluency. Explore practical strategies for integrating multimedia elements to foster rich, multimodal expression. Through real-world examples and actionable takeaways, you'll learn how to cultivate student agency and a love for storytelling. Leave with the inspiration and tools to transform your classroom into a hub of digital authorship.

💜 Canva

🎨 ***Creating with Canva*** (1 hour session)
Seeking ideas to boost creativity and communication in your classroom? This hands-on session will dive into the exciting features of Canva. You'll discover insider tips and tricks for crafting engaging content and projects that truly resonate with your diverse learners. We'll give you plenty of time to practice creating your own resources, along with a wealth of ideas for inspiring student-led projects. Come prepared to spark your imagination!

⚡***Engage & Empower: Canva and the 21st-Century Learner*** (2 to 3 hour workshop)
Unlock your students' potential with Canva! This interactive session highlights how this user-friendly graphic design platform acts as a springboard for developing crucial 21st-century skills: creativity, communication, collaboration, and critical thinking. Explore practical, hands-on methods to integrate Canva across your curriculum, empowering students to move beyond passive learning. Discover how they can leverage Canva to visually express complex ideas, engage in collaborative design processes, critically evaluate visual information, and unleash their unique creative voices, equipping them for success.

🎉 Fostering Creativity & Engagement

🔥 ***Amplifying Student Voice & Creativity*** (1 hour session to 2 hours workshop)
Ready to empower your students to become confident creators? This session is packed with engaging ideas and easy-to-use tools designed to amplify student voice and creativity. We'll explore a variety of resources that foster the 5 C's, helping you transform your lessons into dynamic, student-centered experiences. You'll leave with a toolbox of ideas that can be seamlessly integrated into any subject or grade level. Let's unlock your students' full creative potential!

💻 ***Appy Hour: Tools to Foster the 4 C's*** (1 hour session)
Ready to discover some amazing apps that will transform your classroom? We'll explore powerful tools designed to boost student engagement and enhance your instruction. You'll get hands-on experience with a variety of online resources specifically geared toward fostering the 4 C's: Communication, Collaboration, Creativity, and Critical Thinking. Leave with a fresh set of tools and a ton of new ideas to spark innovation in your lessons. It's time to make your classroom a hub for 21st-century skills!

🎬 ***Creating Cool Clips & Fun Flicks*** (1 hour session to 2 hours workshop)
Ready to level up your classroom with the power of video? In this session, we'll dive into innovative ideas and a toolbox of apps for creating everything from quick clips to engaging short films. Discover how video projects can dramatically increase student engagement and provide a creative outlet for learners of all ages. You'll leave with practical examples and resources that are easily adaptable across every subject and grade level. Get ready to turn your students into storytellers and filmmakers!

🦄 **Cultivating Creators: Elevating Your Lessons & Projects** (1 to 3 hour workshop)
Are you ready to unleash the inner innovator in every learner? Our students need to be creators, collaborators, critical thinkers, and confident communicators – and have their voices heard. But how do we truly foster these essential skills in our classrooms, moving beyond traditional methods to truly ignite engagement? We'll explore the intersection of pedagogy and technology. This isn't just about learning new tools; it's about reimagining your lessons and projects to empower students as active participants in their learning journey.

🎙️ ***Did You Hear That? Podcasting in the Classroom*** (1 to 2 hour workshop)
Students need to be creators of content, not merely consumers. It's time to transform your classroom into a dynamic hub of creation and innovation! This session will ignite your imagination and equip you with practical strategies to turn your students into passionate content creators through the power of podcasting. We'll dive deep into the ""why"" and ""how"" of integrating podcasting into any subject or grade level. You'll gain a wealth of ideas for bringing this exciting medium directly into your classroom, fostering critical thinking, communication, and collaboration skills.

🔋 **Empowering ELA: Cultivating Student Creators** (1 to 2 hour workshop)
Wanting to transform your ELA classroom into a hub of creativity? This session is packed with innovative ideas and technology tools designed to amplify student voice and boost engagement. We'll explore how to seamlessly integrate technology to foster the 5 C's—Communication, Collaboration, Creativity, Critical Thinking, and Choice—in your secondary ELA lessons. You'll leave with a toolbox of practical resources and lesson ideas that empower your students to become confident content creators. Let's make ELA more dynamic and student-centered!

💚 ***Going Green ... Screen That Is!*** (1 to 2 hour workshop)
Ready to turn your students into content creators instead of just consumers? This hands-on workshop will show you how to level up your lessons and dramatically increase student engagement with green screen technology. We'll explore a toolbox of apps and resources that foster creativity and amplify student voice in every subject. You'll leave with a wealth of ideas and practical examples that are easily adaptable across all grade levels.

🎬 ***Lights, Camera, Action!: Video Production & the 4 C's*** (1 to 2 hour workshop)
Ready to turn your students into filmmakers? This workshop will show you how video production can dramatically increase both student engagement and achievement. We'll explore how the art of filmmaking naturally fosters the 4 C's—Communication, Collaboration, Creativity, and Critical Thinking. You'll leave with a wealth of ideas and resources for implementing film projects. Get ready to empower your students to tell their own stories and unlock their full creative potential!

🎉 ***Ready, Set, Engage!*** (1 hour session)
Tired of lessons that fall flat? This session is your passport to a more dynamic and engaging classroom! We'll explore fun and innovative #edtech lessons that not only captivate students but are also perfectly aligned with your standards. You'll leave with a toolbox full of creative project ideas and a wealth of adaptable resources you can implement right away. Get ready to transform your teaching and watch your students' excitement soar!

📣 ***Stop, Collaborate & Listen (Tools for the 5Cs)*** (1 hour session)
Ready to foster the essential 5 C's in your classroom? This session will give you a toolkit of easy-to-use apps and resources designed to boost student collaboration and communication. Discover engaging ideas that will get your students working together and thinking critically. You'll gain resources that can be immediately integrated into any subject or grade level.

🌈 ***Tools to Foster Student Voice and Creativity*** (1 hour session)
Looking for ideas to empower your students to become confident creators? This session is packed with engaging ideas and easy-to-use tools designed to amplify student voice and creativity. Explore resources that foster the 5 C's, helping you transform your lessons into dynamic, student-centered experiences. You'll leave with a toolbox of ideas that can be seamlessly integrated into any subject or grade level. Let's unlock your students' full creative potential!

🔌 ***Turbocharge Your Tech Toolkit: Creating Engaging, Multimodal Content***
Ready, Set, Let's Create... Join, a fast-paced session focused on building fluency in communicating through a mix of text, audio, images, and video. We'll explore a curated selection of intuitive, powerful, technology tools that make creating rich, engaging content easier than ever. Gain an understanding of how to seamlessly blend different media types to unlock your students' creative potential and gain ideas for your "tech tool kit."

💻 Google

🎨 ***Get Going with Google Drawings!*** (1 hour session or 2 hour workshop)
Ready for a session that gives you ideas you can use on Monday morning? Come explore the untapped potential of Google Drawings! You'll discover how this versatile tool can take student engagement to the next level by fostering the 4 C's: Communication, Collaboration, Creativity, and Critical Thinking. We'll provide you with a wealth of practical ideas and resources that you can implement in any subject. Leave with a new tool in your belt and a renewed sense of creative inspiration!

📋 ***Getting Organized with Google for Coaches*** (1 hour session or 2 hour workshop)
Are you an instructional or tech coach ready to streamline your workflow? This session will dive into the powerful organizational features hidden within Google Workspace for Education apps. You'll discover clever tips and tricks for managing your schedule, tracking projects, and collaborating with teachers and administrators. Leave with a leveled-up coaching toolbox and actionable ideas to make your job more efficient. It's time to get organized so you can focus on what you do best—coaching!

🍏 ***Google Classroom: Tips & Tricks*** (1 hour session)
Ready to go beyond the basics of Google Classroom? This session is packed with innovative tips and tricks to help you level up your use of this essential platform. Discover clever ways to integrate G Suite and other digital resources to create a more dynamic learning environment. We'll explore a variety of apps, tools, and sites that seamlessly connect with Classroom, providing you with a toolbox of ideas to keep your students engaged. Get ready to transform your classroom!

📌 ***Keeping Up With Keep*** (1 hour session)
Ready to get organized and boost your productivity? This session dives into the power of Google Keep, a surprisingly versatile tool for educators. You'll learn clever tips and tricks for using Keep to manage tasks, capture ideas, and streamline your workflow. We'll explore how to effectively integrate Keep with other Google Workspace apps to create a seamless system for both you and your students. Get ready to transform the way you organize and get things done!

📟 ***Let's Get Googley!*** (1 hour or workshop session)
Ready to get more out of your Google Workspace for Education apps? This session is packed with helpful tips and tricks designed to streamline your workflow and boost productivity. We'll dive into strategies for organizing your Google Drive and mastering G-Suite apps like a pro. You'll leave with practical, actionable ideas that will help you work smarter, not harder. Let's make your Google life a whole lot easier!

🖥️ Microsoft

🟪 ***Master Microsoft Teams*** (1 or 2 hour session)
Ready to supercharge collaboration and communication in your classroom? This session will dive into the essential features of Microsoft Teams, showing you how to create a dynamic digital hub for your students. We'll explore practical strategies for organizing lessons, sharing resources, and fostering real-time communication that keeps everyone connected. You'll leave with actionable tips to manage assignments, provide meaningful feedback, and create an engaging learning environment. Get ready to unlock the full potential of Teams and transform your teaching!

👍 ***Office 365 Tips & Tricks*** (1 hour session)
Ready to unlock the full potential of Office 365 and streamline your school day? This session is packed with clever tips, hidden features, and time-saving tricks designed specifically for K-12 educators. We'll explore innovative ways to use tools like Word, PowerPoint, and OneNote to boost student engagement and simplify your workflow. You'll discover how to create interactive lessons, foster seamless collaboration, and make data management a breeze. Get ready to transform the way you teach and work with these game-changing strategies!

💖 Miscellaneous

🧩 **Chrome Extension Extravaganza** (1 hour session)
Got extensions? This session will reveal the best Chrome Extensions to boost your productivity, spark creativity, and enhance your lessons. Discover a curated collection of tools that can help you with everything from managing your workflow to creating dynamic content. You'll leave with a powerful new toolkit to streamline your work and keep students engaged. Get ready to transform your Chrome browser into the ultimate classroom companion!

💡 ***Jen's 10 Ideas*** (30 minute to 45 minute session)
Ready for a lightning-fast download of innovative teaching ideas? This session is packed with 10 game-changing ideas. You'll discover quick, practical ways to boost student engagement and creativity in any subject, all designed to be implemented immediately. Get ready to fill your toolbox with fresh, actionable ideas in just one session! Select a one of the following topics:

- Adobe Express
- Bitmoji
- Book Creator
- Canva
- Google Drawings
- Google Forms
- Google Slides

📚 ***Level Up with #EdTech for ELA*** (1 hour session)
Ready to level up your ELA instruction? This session is packed with innovative #EdTech tools and resources to strengthen reading and writing skills. You'll learn practical strategies for differentiating your lessons and engaging every learner in a more dynamic way. Add tools and ideas to your toolbox to boost communication skills and make ELA more exciting. Get ready to transform your classroom with these game-changing tools!

🎞️ **Script to Screen: Tips for Developing a District Film Festival** (1 hour session)
Imagine - Create - Inspire. This session offers a candid look at the journey of establishing and growing a district film festival. We'll delve into the triumphs of year two, showcasing increased student participation and the remarkable creative achievements of our young filmmakers. Attendees will gain valuable insights, practical strategies, and lessons learned for creating or scaling their own student film initiatives, fostering creativity and 21st-century skills within their educational communities.

😜 ***There's a Bitmoji for That!*** (1 or 2 hour workshop)
Are you looking to level up your presentations, resources, or Bitmoji Classroom?
I love my Bitmoji! I must admit, my "Jenmoji" leads a very exciting life. People have even called me the Bitmoji whisperer. Learn creative design tips and secret Jen hacks like face-swapping. Explore sites, apps, and tools for using your Bitmoji to engage your audience.

📱 ***To Tweet or Not To Tweet? That is the Question ...*** (1 hour session)
Ready to amplify your voice and share your amazing work? This session will guide you through the essentials of building your personal educator brand using social media. Explore practical tips, tools, and resources to help you tell your unique story and become your own best cheerleader. You'll gain new ideas for connecting with a professional learning network and celebrating your classroom wins. It's time to stop wondering and start sharing!

🍎 Personalized Learning

📚 ***Engaging #EdTech for ELA*** (1 hour session)
Ready to level up your ELA instruction? This session is packed with innovative #EdTech tools and resources to strengthen reading and writing skills. You'll learn practical strategies for differentiating your lessons and engaging every learner in a more dynamic way. Add tools and ideas to your toolbox to boost communication skills and make ELA more engaging.

💡 ***HyperDocs, Say What?!*** (1 to 2 hour workshop)
Looking for a way to share content with your diverse learners? Seeking tools to differentiate instructional resources? Gain ideas for implementation ideal for creating synchronous and asynchronous learning experiences while adding templates to your toolbox. Learn the "how and why" to engage and foster students' skills, while differentiating to meet academic levels and learning modalities.

⬆️ ***Level Up! Tools & Ideas to Engage Gifted Learners*** (1 hour session)
Ready to challenge and inspire your gifted learners? This session is packed with easy-to-use tools and resources designed to boost engagement and foster higher-level thinking. We'll explore innovative ways to incorporate the 5 C's—critical thinking, creativity, and more—into your lessons. You'll leave with a toolbox of ideas that can be seamlessly integrated into any subject or grade level. It's time to provide the differentiated and enriching experiences your gifted students deserve!

🌊**Wake What? Using Wakelet for Differentiated Lessons** (1 to 2 hour workshop)
Looking for a way to share content with your diverse learners? Seeking a tool to differentiate instructional resources? Learn about the features of Wakelet, gain ideas for implementation ideal for creating synchronous and asynchronous learning experiences, add templates to your toolbox, and ride the Wakelet Wave.

👍 Feedback and Comments

"Best session! Thanks, Jen, for all of the great tips. Your energy and delivery were great and I'm excited to use what you've taught me with my students!"

"Ms. Hall was enthusiastic, energetic and engaging during her presentation. Ms.Hall is an amazing and awesome presenter when it comes to demonstrating tools to use to enhance learning within the classroom, implementing technology."

"PD was very resourceful/valuable & useful to our students. As always, you make it easy and fun!"

"Jen Hall is always a powerful presenter. She provides hands-on training that makes integrating technology seamless."

"Very good and very applicable. Oftentimes these PDs are not immediately applicable or realistic but Jen Hall's always is."

"This was a great session and I really appreciate Jen's presentation energy and style."

"Jen is the best. I love attending her workshops. She is a great teacher and provides a wealth of information every time."

"I enjoy Jen's presentation style and the wealth of knowledge that she shares with educators."

"The session was filled with fabulous resources, hacks, positivity & instantly usable ideas. Loved every second. Best session ever."

"Ms. Hall and her Tech Tips 411 are both amazing. She is an unlimited resource and I can't imagine my classroom without her expertise. She shares real world, highly engaging, relevant, and tips."

"Exciting content! I am looking forward to learning more. Thank you, Jen, for keeping the session engaging and moving!"

"Amazing! You always share new tools that I can implement immediately! Thanks a bunch!"

"You always do an amazing job engaging your class and planning for your sessions. I always walk away with something I can use right away. Thanks!"

"This was an AWESOME training. So happy to have all of the new resources in my digital learning toolbox. Thanks for always providing excellent training experiences."

"Jen is always exciting and enthusiastic about teaching teachers on how to implement new tools to engage students."

"Jen's session was delightfully engaging and extremely relevant."

"Fabulous session...you kept my attention and provided extremely useful information!"
