TECH TIPS 411

A resource from Jen Hall

Vol. 13 - Issue 13 11/3/2026

Happy Tuesday,
#EdTech friends!

Last Friday and yesterday, I worked with high school students to record podcasts. They collaborated in small groups to share and discuss their original poems. We used Adobe Podcast to record and create audiograms. Spending time in the classroom always fills my bucket.

Guess the Line

The game where AI judges your drawing skills

Play game

Show off your sketching skills in **Guess the Line**, a game in which you draw the items described on the cards in front of you, while a machine learning powered robot tries to guess what you're drawing.

WELCOME TO

ISLE OF TUNE

a music sequencer for the modern colonial

What?

Create musical journeys from street layouts. Roadside elements are your instruments and cars are the players. Share your island for others to play and vote on!

How?

https://isleoftune.com

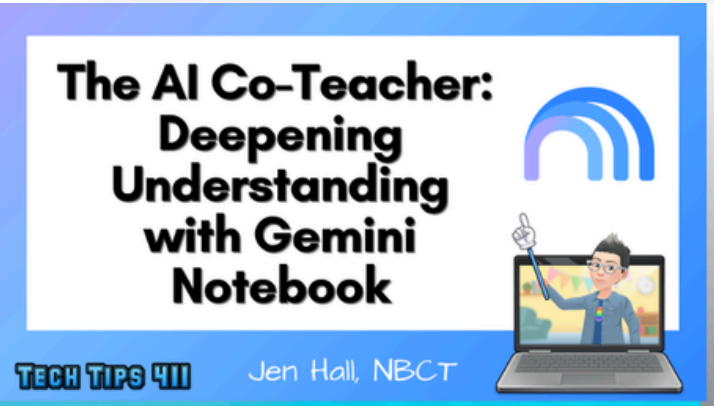
Lay down some road...

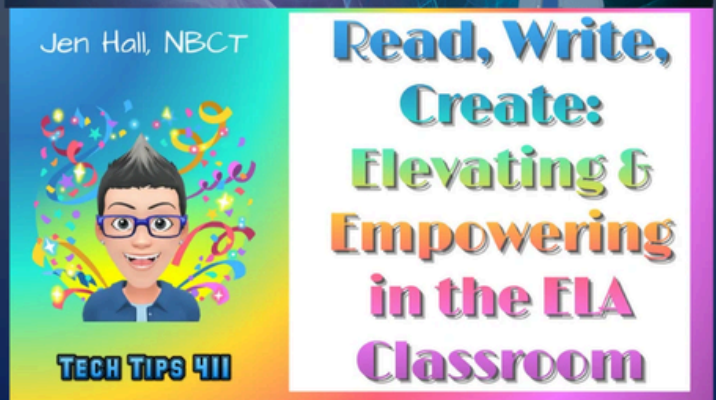
Add houses, trees and things...

Drop a car in and you're off!

GOOD TO KNOW

TECH TIPS 411





This week I will be speaking at GaETC, sharing and connecting with Georgia educators. I am excited to facilitate six sessions Wednesday- Friday.
