

Accessing your Digital Resources through myBackpack

1. Launch the Chrome browser.
2. Go to <http://myBackpack.apsk12.org>
3. You will see the screen to the right.
4. Sign in with the following credentials:

Teachers and Staff:

Your APS username and password.

Students:

Username: **Student ID**

Password: **Lunch # XXX**

5. You are now on your myBackpack landing page. Simply click on an icon to access the resource.

- Please note that some applications will require you to login the first time so that myBackpack can store your password and use it for future logins.
- The first time myBackpack is accessed at home, the browser will need to install the myBackpack extensions. To do this, just click “Ok” or “Yes” when prompted until the install is complete. Then restart the browser.
- Make sure any “Pop Up” blockers are turned off as myBackpack uses popup windows.
- If there is more than one student at home using myBackpack, make sure they log out of myBackpack, log off the computer or restart the computer between each student’s session.
- Parents or students if you have questions, you can contact your child's school.
