StoryboardThat

## Storyboard Creator

At the heart of Storyboard That is our incredibly powerful, yet easy to use storyboard creator.

- **Simple & Fun Interface:** The storyboard creator uses a familiar drag and drop interface that users of all ages pick up in seconds. Our creator allows you to fully customize numerous aspects of your storyboard; from coloring in your own character, to adding text, we have everything you need to get the story straight!
- **Detailed Image Library:** Creating a beautiful and expressive storyboard is easy with our extensive and well curated library of over 325 characters, 225 scenes, and over 45,000 images in search. If that still isn't enough we offer another powerful tool; the ability to upload your own images!
- **Focus is on The Story:** By using a storyboard like a graphic organizer it helps structure students work into a linear and concise story. Although it feels easy at first, breaking down ones thoughts into just a few cells works critical skills in prioritizing the right information and creating a good story flow.
