vocabulary.com
learn new words every day

HOW IT WORKS:

1 Answer a few questions
We've created more than 120,000 questions designed to help you learn words.

2 We build a model of your knowledge
Our magical technology models your brain. The more you play, the more we know about your vocabulary knowledge.

3 We predict which vocabulary words you don't know and teach them to you
Get a question wrong? We'll schedule Review and Progress questions so that you'll learn the word, and won't forget it in the future.

4 You learn useful words and improve your vocabulary
Track your progress as you quickly master the words that are essential to success in an academic or business environment.
