# TECH TIPS 411

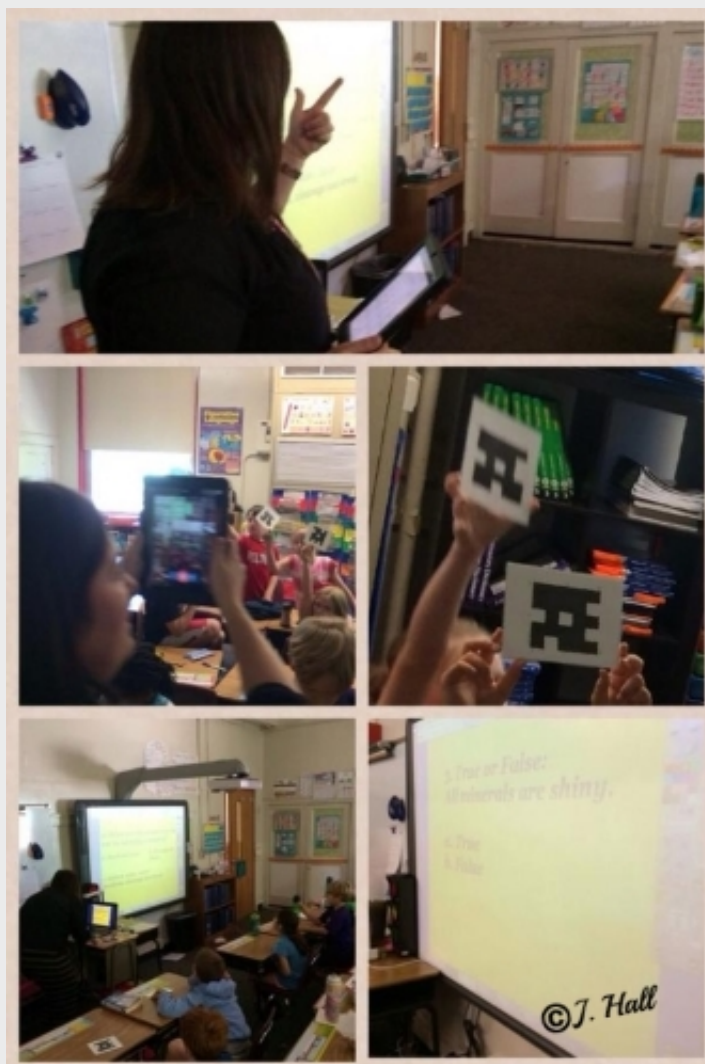

This week I am featuring two of my favorite free educational technology tools. Be sure to check out my website [www.techtips411.weebly.com](http://www.techtips411.weebly.com) for an up-to-date list of my favorite websites and iPad apps. Also, please be sure to [contact me](#) if I can be of assistance.

[ETS Request Form](#)

Plickers is an amazing app that allows teachers to capture student assessment data with only one device (iPad, iPhone, Android tablet or phone). Plickers is perfect for a one iPad classroom. Check out the video demo on [www.plickers.com](http://www.plickers.com).

Ms. McKinley's 3rd graders at Morris Brandon Elementary "love" Plickers.

Create your own free class website. With an easy drag and drop interface, [Weebly](#) is a fantastic tool for developing a site to share class assignments and resources.

Teachers can also register for an account which allows students to create their own [Weebly](#) sites. A terrific tool for project-based learning.
