TECH TIPS 411

A resource from Jen Hall

Vol. 13 - Issue 10 10/13/2026

Happy Tuesday, #EdTech friends!
I always love facilitating professional development.
Last week, I led a session on AI for induction teachers and another on creating engaging virtual lessons for K-8 students.
This week, I am facilitating two sessions for secondary ELA & SS teachers on fostering creativity and assessing learners with interactive video.

Jen

DRAWSPLAT PDFsplat™

Open a file. Make it a PDF.

Drop PDF, DOCX, PPTX, EPUB, Markdown, text, or images here.
Conversion happens on this device.

Capture an open tab or window | Scan paper or photos

Choose files

Quick start

1. **Open or scan.**
   Choose a PDF or supported document, drop files here, or scan paper and photos into a new document.
2. **Edit.**
   Open Edit & annotate. Choose text, an image, or a signature, then click or tap the page to place it. Highlights and drawing are also available. Select a text box to change its text, size, color, or opacity at the top of the tools panel.
3. **Organize.**
   Drag page thumbnails to reorder them. Open Pages for rotation, cropping, duplication, or splitting.
4. **Save a copy.**
   Use Undo to reverse an edit, then choose Save as... for PDF, images, or document formats. Your original file stays unchanged.

Your work stays in this browser. Save a copy before closing the tab.
